Species	Previously named	Flowering times
<i>Spiranthes novae zelandiae</i>		Jan. Pink flowers, locally rare
<i>Aporostylis bifolia</i> *		January Odd leaved orchid
<i>Earina autumnalis</i>		Feb – July Easter orchid (epiphytic)
<i>Orthocerus novae-zeelandiae</i>		February
<i>Acianthus sinclairii</i>		May – October
<i>Pterostylis graminea</i> agg		August – December
<i>Nematoceras macrantha</i> *	<i>Corybas macranthus</i>	August – November
<i>Nematoceras orbiculata</i> *	<i>Corybas orbiculatus</i> aff.	August – October Short horns, hood edges rolled with pointed beak
<i>Thelymitra carnea</i>		Sep – Nov. 4 or 5 pink flowers Rare.
<i>Nematoceras acuminata</i> *	<i>Corybas acuminatus</i>	Sept – Dec Spider orchid
<i>Earina mucronata</i>		Sept – Jan Spring flowering orchid (epiphytic)
<i>Nematoceras triloba</i> aff *	<i>Corybas trilobus</i>	Sept. – Oct. Dark wine labellum
<i>Caladenia chlorostyla</i> *	<i>Petalochilus variegata</i>	September – December
<i>Caladenia carnea</i>		September – November
<i>Thelymitra ixioides</i> *		Oct – Dec. Pale blue, dark spots and mauve hood
<i>Pterostylis paludosa</i>	<i>Corybas oblongus</i>	Oct – Jan – status declining similar to <i>P. micromega</i>
<i>Thelymitra nervosa</i>		Oct – Jan deep mauve 6 flowers
<i>Singularybas oblongus</i>		Oct-Dec Spider orchid
<i>Nematoceras triloba</i> *	<i>Corybas trilobus</i> aff	October – December
<i>Pterostylis banksii</i>		October – December
<i>Pterostylis montana</i> aff		October – December
<i>Drymoanthus adversus</i>		October – December (epiphytic)
<i>Chiloglottis cornuta</i>		October - February
<i>Nematoceras rivularis</i> aff*	<i>N. Macrantha</i> & <i>N. rivularis</i> aff	October – November
<i>Thelymitra pulchella</i> * (1)		(1) Nov – Jan blue with dark blue stripes
<i>Thelymitra pulchella</i> * (2)		(2) Nov – Jan Rare white flowers with blue stripes
<i>Pterostylis australis</i>		Nov – Dec green hood orchid
<i>Microtis unifolia</i>		Nov – Feb Grass orchid
<i>Ichthyostomum pygmaeum</i> *	<i>Bulbophyllum pygmaeum</i>	Nov – Feb epiphytic on white pine
<i>Thelymitra hatchii</i>		Nov – Jan 6 lilac purple flowers PAGE 5

<i>Pterostylis micromega</i>		Nov – Jan flowers creamy green Similar to <i>P. paludosa</i>
<i>Thelymitra pauciflora</i>	<i>Dendrobium cunninghamii</i>	Nov – Jan Reddish purple, no spots or stripes more than 10 flowers
<i>Thelymitra longifolia</i>		Nov – Jan up to 20 white flowers (most common)
<i>Thelymitra cyanea</i>		Nov – Mar Blue with dark blue stripes
<i>Caladenia lyallii</i> *		November
<i>Nematoceras rivularis</i> *	<i>Corybas rivularis</i>	November – at risk.
<i>Thelymitra venosa</i> *		Dec – Feb blue with dark blue stripes
<i>Winika cunninghamii</i>	<i>Dendrobium cunninghamii</i>	Dec – Jan bamboo orchid epiphytic
<i>Gastrodia cunninghamii</i>		Dec – Jan La & Co different lengths
<i>Thelymitra formosa</i>		Dec. 12 – 18 blue or mauve flowers
<i>Pterostylis sp</i> *	<i>Spiranthes sinensis</i>	Dec. Northern end of swamp
<i>Pterostylis irwinii</i>		December
<i>Microtis oligantha</i> *		December – February
<i>Pterostylis irsoniana</i> aff		December – February
<i>Adenochilus gracilis</i>		December – January
